Study Cards

Obtained from <http://www.theteachertoolkit.com/index.php/tool/study-cards>

In the boxes below, record by hand important information and ideas about your assigned chapter that you would like to share with the members of your PLC. You may also draw illustrations to help you remember the information. You may complete more than four study cards. You may leave the cards intact or cut them into actual cards, which is actually the way they are to be used. At the end of class, you will turn in your study cards to me.
